

greatly appreciated. Each of you have done your part to support & help Iraq. As a Marine it is my job to protect our safety as we carry out our missions. The children always smile & wave when we visit. It has been hard to stay motivated but to see their faces makes it all worth it. I am honored to be serving my country and the people of Iraq. We will continue to work hard until our last day in Iraq. This has been an interesting experience and something I am proud of. Thank you again for your contributions you are helping to make a difference!
